## Approved For Release 2000/08/08: CIA-RDP96-00789R001700490009-2

17 NOVEMBER 1986

SG1J

SESSION SUMMARY

SITE: Venice, Italy

a land water interface, at no time did I perceive structures, city, or civilization. The overall feeling was one of a quiet, wast expanse of sand with a lowering, natural, hard, rough landmark sticking very high into the air... like that of the formations in Monument Valley, arizona, or the Devils tower.
